Machine tool plant in North America

We would like to announce that below bill regarding machine tool plant construction in North America has pass in board of meeting held on 2nd December, 2010.

1. Purpose

We expect an enough earnings by having share rise of our products in North America. In addition, our purpose is to reduce overhead expense such as freight rates and packing fee from Japan in consideration of the exchange balance.

2. Outline of factory construction

- (1) Address : Davis city California, United Sates of America
- (2) Site are : about 89,000 m²
- (3) Operation : July, 2012
- (4) Investment : 5 billion yen
- (5) Product : Horizontal machining center and others, our leader line-up "X class"
- (6) Capacity : 80 units / month
- (7) Employee : 200 employee

3. Influence given to operating performance

We expect minimal influence to our operating performance of present period.
